Carna-10

Coenzyme Q10

L-Carnitine & Vitamin E

Boosts Adenosine Triphosphate

Improves Immune System

Promotes Energy Production

- ✓ Helps to optimize fertility and normal reproductive cycle
- ✓ Improves egg quality & lead to a better chance of healthy pregnancy
- ✓ Helps to protect heart from failure by improving heart function
- ✓ Promotes exercise capacity and decrease fatigue
- ✓ Helps to increase insulin sensitivity & improve blood sugar levels
- ✓ Helps to protect heart and brain cells from oxidative damage
- ✓ Reduces the action of harmful compounds.

Carna-10 is a dietary supplement containing Q10 enzymes, L-Carnitine and Vitamin E substances which enhances endurance, strengthens the heart and improves the functions of immune system.
The preparation has been supplemented to enable effective absorption of Q10 enzyme by the body.

L-Carnitine has important role in cerebral bioenergetics, neuroprotection and promotion of synaptic neurotransmission.

Vitamin E is the major lipid-soluble, chain-breaking antioxidant in the body protecting the integrity of membranes.
