Supplement Facts

Each Sachet Contains:

Myo-Inositol	1100mg
D-Chiro Inositol	25mg
L-Methylfolate	1000mcg

INDICATIONS:

Myo-Inositol with D-Chiro Inositol:

A hormonal disorder that causes enlarged ovaries with cysts (polycystic ovary syndrome or PCOS). Taking D-chiro-inositol and myo-inositol by mouth seems to lower triglyceride and testosterone levels, decrease blood pressure, and improve the function of the ovaries in overweight or obese women with PCOS.

L-methylfolate prior to conception has been associated with a greater chance for getting pregnant, improved success with fertility treatments, and reduced risk of neural tube defects in the baby.

Directions to use:
