

TRIGIN

MEN'S HEALTH SUPPORT

IMPROVES SPERM MOTILITY

BEST FOR ERECTILE DYSFUNCTION

ENHANCES LIBIDO & DESIRE

CONTROLS PREMATURE EJACULATION

TRIGIN contains Tribulus Terrestris which is effective in sexual reproductive system and improves activity. Also prolongs penile erection in men. It has stimulating effect on spermatogenesis by increasing the number of spermatozoa, motility and viability.

TRIGIN provides Ginseng that helps to reduce the risk of erectile dysfunction (ED). Also, Ginseng may promote the release of nitric oxide, triggering erections by relaxing the smooth muscles of the penis.

TRIGIN has Ginkgo Biloba which is used for dysfunction such as erectile dysfunction or low libido. Ginkgo Biloba has the ability to relax the muscles of the blood vessels and improves circulation of the blood.

TRIGIN includes Saffron that helps to increase drive and function and also has a positive effect on erectile dysfunction.

TRIGIN also has Vitamin E, which is important for stamina & energy and improves blood circulation. It is also called "sex vitamin" because it increases blood flow and oxygen to genitalia.

TRIGIN contains Zinc which helps to modulate testosterone levels and it helps with sexual competency and erectile dysfunction. Zinc helps to boost the immune system.
