

CHEWABLE
Vitamin D₃
10000 IU

- ✓ Helps Restore vitamin D levels
- ✓ Enhances calcium absorption and calcium uptake
- ✓ May Reduce parathormone levels
- ✓ Improves skeletal muscle strength

contains Vitamin D₃ which is ideal for those who have difficulty in achieving and maintaining peak vitamin D levels. This often includes elderly patients with low vitamin D levels, those with challenges in absorbing and maintaining vitamin D levels and overweight patients with an elevated body mass index that impairs vitamin D circulation requiring significant repletion doses. For those who require an immediate boost in their vitamin D status.

(Vitamin D₃ 10000 IU) is a convenient, effective way to get the substantial support they need. Vitamin D plays a truly remarkable role in the body for all round health and wellness, from contributing to the normal function of the immune system to the maintenance of normal bones and teeth.
