

Whoogo Cough Syrup

Ivy Leaf Extract
Thyme + Licorice

Natural Expectorant to
Relieve Cough

Helps Loosens
Mucus & Phlegm

Whoogo syrup is of great taste and soothing chest tonic based on an extract of ivy leaf that provides support for clear airways in the respiratory system. Throat and chest irritations can be stressful for both adults and children & can impact the respiratory system, particularly when they interfere with sleep. Ivy leaf supports the body as it fights respiratory illness, irritated mucus membranes and helps to clear airways. It helps breathe freely.

Whoogo syrup is used to reduce swelling of the membranes that line the breathing passages and breaking up chest congestion as an expectorant. Ivy Leaf extract help improve lung function in children with chronic bronchitis.
