Iromax Iron with Folic Acid Vitamin B Complex

Iromax contains Iron (ferrous sulfate) which is used for iron deficiency (anaemia). Iron helps the body to make healthy red blood cells, which carry oxygen around the body.

Iromax supports haemoglobin and red blood cells in the body.

Iromax provides Folic Acid that helps the body to make healthy red blood cells and is used for folate deficiency. Folic Acid helps the unborn baby's brain, skull and spinal cord to develop properly and avoids development problems (called neural tube defects) such as spina bifida.

Iromax contains Vitamin B complex that helps in the reduction of tiredness, fatigue, body weakness, headaches and enhanced sensitivity to cold temperature. Iromax is a gentle iron supplement with folic acid and B vitamins, formulated to deliver an ideal amount of iron to the body and remains gentle on the stomach.

Iromax contributes to the normal function of the immune system and normal cognitive function.

Iromax provides an ideal source combining Iron with other blood building nutrients such as folic acid, vitamin B6 & B12 which also contribute to normal blood formation.
